Blacklight Blonde Science: Inspired by Skincare. Fueled by Superfoods. Engineered for Blondes.

Blacklight Blonde Science was conceived around one defining question: *what if blonde care was formulated with the same precision as high-end skincare and nutritional science?*

OUR IN-HOUSE LAB COMBINED :

Skincare principles: hydration, barrier repair, and moisture retention

Nutrition-inspired thinking: superfoods, amino acids, and targeted actives

Professional insight: decades of work with blondes in real salons to create a smart, modern blonde system.

The result: **a cohesive technology platform** that keeps blondes hydrated, stronger, and tonally perfected.

HYD

HYD [HYDRATE]

Hydrates. Moisturizes. Rebalances.

Inspired by skincare and nutrition science HYD is powered by the synergy of hydrating and moisturizing agents that restore the hair and scalp's essential balance. HYD technology delivers deep hydration and locks in moisture within the inner structure of blonde hair.

FOCUS:

Hydration
Moisture balance
Scalp comfort

KEY ACTIVE INGREDIENTS:

Hyaluronic acid:

draws and retains moisture for improved elasticity

Avocado, rice bran, and hemp seed oils:

nourish and condition

Superfood-inspired complex:

supports softness, shine, and resilience

RESULTS:

HYD leaves blonde hair revitalized, luminous, and beautifully resilient while respecting the scalp.

REP

REP [REPAIR]

Repairs. Strengthens. Revives.

Inspired by skincare and nutrition science, REP is powered by the synergistic action of ceramides, superfood extracts, and nourishing oils. Formulated by our in-house lab, REP technology helps:

- Replenish lipids
- Rebuild the hair's protein structure
- Reinforce blonde hair's natural barrier

FOCUS:

Repair
Reinforcement
Breakage reduction

KEY ACTIVE INGREDIENTS:

Ceramide NG:

supports the protective lipid barrier of the hair fibre

Superfood extracts (quinoa, chickpea, lentil):

plant-derived proteins and amino acids

Apricot kernel and argan oils:

nourishment, softness, and shine

RESULTS:

REP technology penetrates deep into each strand to help prevent split ends, improve elasticity, and shield against future damage, leaving hair stronger, smoother, and beautifully resilient.

NEU

NEU [NEUTRALIZE]

Neutralizes. Brightens. Nourishes.

(Umbrella technology behind **BLU** & **VIO**)

Inspired by skincare and nutrition science, NEU is powered by the synergy of squalane, nutrient-rich superfoods, and chromophore technology to neutralize unwanted tones while delivering lasting hydration. Developed by our in-house lab, NEU technology:

- Locks in moisture
- Smooths the hair's surface
- Adds shine for healthy-looking blondes

FOCUS:

Tone correction
Hydration
Protection

KEY ACTIVE INGREDIENTS:

Squalane:

reinforces the hair's natural
barrier and helps retain
moisture

Moringa oil, açai extract, argan oil:

plant-derived proteins and
amino acids

Chromophore technology:

nourishment, softness,
and shine

RESULTS:

With NEU, blondes look
brighter, softer, and
beautifully balanced.

BLU [NEUTRALIZE]

Neutralizes. Brightens. Nourishes.

The BLU collection uses NEU technology to specifically target unwanted orange tones and deeper brassiness in blonde and light brown hair.

TARGET: Orange tones and brassiness on dark blondes to light brunettes.

RECOMMENDED FOR:

- Dark blonde to light brown hair
- Highlighted or coloured hair that tends to turn warm or brassy

With **squalane, moringa oil, açai extract, argan oil, and chromophore technology**, BLU helps:

- Neutralize unwanted orange tones
- Reduce brassiness
- Hydrate and smooth the fibre
- Extend colour for luminous, healthy-looking hair

VIO [NEUTRALIZE] Neutralizes. Brightens. Nourishes.

The VIO collection leverages NEU technology to neutralize up to 100% of unwanted yellow tones and brighten blonde shades, while delivering lasting hydration.

TARGET:

Yellow tones and brassiness on lighter blondes and white hair.

RECOMMENDED FOR:

- Lighter blondes
- Highlighted, coloured, or natural blonde hair
- White hair that has developed yellow tones

With **squalane, moringa oil, açai extract, argan oil, and chromophore technology**, VIO helps:

- Neutralize yellow tones for clearer, brighter blondes
- Revive clarity in light blonde and white hair
- Hydrate, smooth, and enhance luminosity

BND

BND [BOND]

Bond Protection, pH Control & Rebuilding

A 3-step professional bond care system to protect during lightener/colour services, cleanse while indicating pH to detect any alkaline residue and strengthen the hair after lightener/colour services.

FOCUS:

Bond support
Rebalancing protocol

KEY ACTIVE INGREDIENTS:

Hydrolyzed rice protein
Superfood extracts
Apricot kernel oil
Ceramide NG
4D hyaluronic acid blend
Herbal amino blend

RESULTS:

Together, these PRO formulas support stronger, more resilient blondes throughout the chemical service journey.

Product Range

Blacklight **BND**

BOND pHASE OUT SHAMPOO

946 ml - 32 oz

A pH-balancing shampoo with a visible pH-sensitive indicator that detects residual alkalinity, helping return scalp and hair to a balanced state, reducing irritation, minimizing breakage, and preparing hair for bond rebuilding.

BOND BUILDING TREATMENT

500 ml - 16.9 oz

An advanced treatment with Aminoceutical Complex (ceramide NG, 4D hyaluronic acid blend, herbal amino blend, bond builders, and superfood extracts) to rebuild broken bonds and keratin network, restore the lipid barrier, provide multi-layer hydration, reduce porosity, and reinforce elasticity and resilience.

BOND PROTECTION CONCENTRATE

100 ml - 3.4 oz

An in-salon additive that helps shield internal bonds during lightening or colouring. With hydrolyzed rice protein, superfood extracts, and apricot kernel oil, it reduces protein and moisture loss, controls porosity, and preserves elasticity and resilience.
